**Subject:** WA-96 Task 1.5 Draft geochemical modeling criteria  
**Attachments:** WA\_96\_Task\_1-5 GeochecmModel Criteira\_5-31-2019.docx

Hi Valois, Bruce (and Rick),

Please find attached the draft geochemical criteria document for Task 1.5. Although the topic is complex, this document is shorter than the CSM criteria document because information on data types and other topics can be found in the CSM criteria document. Let us know if you think additional references are needed to link the two criteria documents more strongly.

We know that we can barely scratch the surface of geochemical modeling in this type of document, but we've worked to present some of the more significant considerations for developing a geochemical model and implementing it in an appropriate program.

Let us know if you have questions, and we'll look forward to hearing your thoughts.

Mary Ellen
